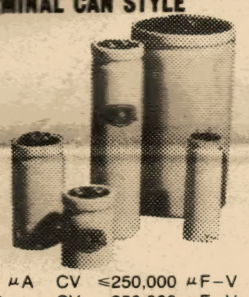
SANGAMO COMPUTER GRADE ELECTRO'S

TYPE 500 SCREW TERMINAL CAN STYLE

The 500 range of computer grade aluminium electrolytic capacitors is designed for long life applications which require high ripple current, low E.S.R. and high CV product at 85°C continuous operation. The 500R range covers the higher capacitance values and the 500R has minimum E.S.R. ratings. Life tests are either 1500 hours at 85° C with rated DC voltage and full rated ripple current or 2000 hours at 85° C with rated DC voltage and 85% of rated ripple current. Standard tolerances are +75, − 10% and +50, − 10%.



Leakage current = .006 CV + 4 μA CV ≤250,000 μF–V
= 3 √CV (μA) CV >250,000 μF–V

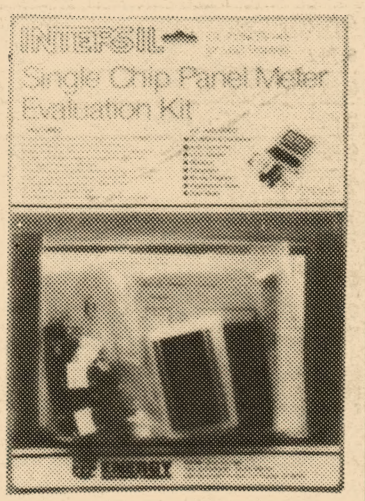
INTERSIL SINGLE CHIP PANEL METER EVALUATION KIT

I.C.L. 7106 EV/KIT FOR L.C.D. DISPLAYS



FEATURES

- Accuracy guaranteed to ±1 count over entire ±2000 counts
- Guaranteed zero reading for O volts input
- True polarity at zero count for precise null detection
- Single reference voltage for ratiometric operation
- On-board clock and reference
- Drives displays directly without buffering, etc.
- Digit suppression gives visual indication of over range
- Low Power Consumption – <10mw @ 10V
- Low Noise – typically 15μV
- Differential Input from 200mV to 2000V full scale

KIT INCLUDES

- P.C. Board & Hardware
- A/D Converter
- L.C.D. Display
- Resistors
- Capacitors
- Wiring Diagram
- Application Notes
- Data Sheet

Good quality gloss finish black with silver mesh. Enhance your speakers at half the normal cost, size 5' x 3'.

FOR ONLY $6.00

PAINTON CAMBLOCK

Terminal block — providing a fast, positive method of effecting terminations which completely eliminates the danger of severed wires, the necessity for tinning, and the disadvantage of loose parts. The "CAMBLOCK" comes in medium and sub-miniature size. The heavy duty medium is rated at 30 amps, and the sub-miniature at 10 amps.

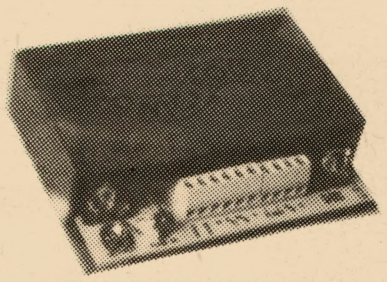
Optional 12V Buzzer **$1.90**

ARLEC ELECTRONIC CAR ALARM $55.95

Protect your car and its contents from theft. ● 12V D.C. solid state circuitry ● Siren blasts for 3 minutes after being triggered ● Automatic immobilisation of car ignition ● Easy installation ● 12 months guarantee.

NEW! SONIC SOUND CAR ALARM



THE PROTECTION AGAINST THEFT

OUTPUT — ■ Open circuit relay contact rated 3 amp for siren or other use ■ Open circuit relay contact rated 3 amps, operates the car-horn which may be adjusted to sound, at irregular intervals.

CIRCUIT — ■ Open circuit exit/entry delay ■ Closed circuit instant ■ Open circuit instant negative ■ Open circuit instant positive.

FUSE — ■ 3 amps to protect against shortage.

TIMER — ■ Exit 30 seconds set ■ Entry 0-1 minute adjustable ■ Output 0-25 minutes adjustable.

WHEN THE SYSTEM IS TURNED ON — ■ Dashboard warning light flashes on and off ■ Vehicle can not be driven

ALL CIRCUITS LEAD TO EARTH THEREFORE ■ Only one line is required per circuit, as the car body (earth) is used as the second line ■ Preventing wire shortages ■ It is easier and faster to install.

12 MONTHS GUARANTEE EXCLUSIVE TO US

AT ONLY $42.95

ALARM EQUIPMENT FOR THE 'DO-IT-YOURSELF' HANDYMAN

CYPHER COMPOSITE CONTROL MODULE

DESCRIPTION

The Cypher Composite Control Module (CCM) is a fully solid state two sector control module with LED status indication on each sector and a "Low Battery/Exit Time" LED.

A reset or lockout switch is also provided to complement the appropriate detection devices employed and also to speed up testing after installation and satisfy noise pollution laws.

An adjustable "EXIT" time also speeds up testing time, whilst increasing the flexibility of the system. The Cypher CCM will accept both open and closed circuit devices together on either delayed or instant sectors.

Designed to run: Reed Switches, Pressure Mats, Microwaves, Ultrasonic, etc.

SPECIFICATIONS

Supply Voltage: 9.5 VDC — 16 VDC. Supply Current: Less than 1.mA @ 12 VDC. Supply Current 1 x LED, 10.6 mA @ 12 VDC. Output current "BELL", 1.5 amps max. Output current "SPKR", 1st SPKR 500 mA. PLUS 2nd SPKR 400 mA. PLUS 3rd SPKR 400 mA. Output Voltage "BELL", Supply voltage Minus 0.6 VDC. Exit Time (adjustable), 5-60 Seconds ± 10% * 1/. Entry Time (adjustable), 2-50 Seconds ± 10% * 1/. Alarm Time (adjustable), 5 Seconds — 9 Minutes ± 10% * 1/. Siren Output (d,B 1 x SPKR), 110dB @ 1 Metre

COMES COMPLETE WITH INSTRUCTIONS. ONLY $45.00

Optional extras for above unit. 1. Power supply **$16.50.** 2. Horn speaker **$7.95.** 3. Key switch **$4.80.** 4. Reed switch & magnet **$2.70.** 5. Pressure mat **$9.95.** 6. Window foil (33m) **$4.90.** 7. Tape blocks **25c.**

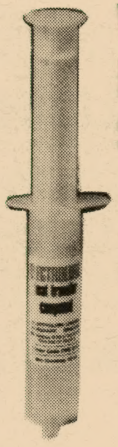
WELL KNOWN ELECTROLUBE SERVICE AIDS!



HEAT TRANSFER COMPOUND

A non-creep compound, with extremely high thermal conductivity, for the thermal coupling of electrical and electronic components.
Unique formulation contains no silicones which cause poor electrical conductivity and soldering problems.
Supplied in syringes for convenient and economical application to all components where heat dissipation is required. Typical areas of use include heat sinks, transistors, thyristors, diodes, silicon rectifiers and semiconductors.
10ml Syringe

$3.95

CLEAR PROTECTIVE LACQUER

A flexible coating for protecting printed circuit boards components and surfaces from humidity and other forms of environmental attack, and for E.H.T. sealing. ELECTROLUBE Clear Protective Lacquer will not discolour or crack and is easy to solder through for modifications or repairs. The convenient aerosol pack eliminates the need to use expensive spray equipment involving laborious cleaning operations and viscosity checks. ELECTROLUBE Clear Protective Lacquer conforms to most International Specifications.
Formerly Printed Circuit Lacquer — PCL2
397g Aerosol

$5.00

ELECTRONIC CLEANING SOLVENT

A fast-drying, safety solvent for quick and efficient cleaning of electrical contacts, electronic components, tape heads, video equipment, computers and all delicate surfaces. Non-flammable, extremely low in toxicity, safe to use during equipment operation, and harmless to plastics, rubbers and elastomers. After cleaning electrical contact surfaces, apply an ELECTROLUBE Contact Treatment.
Formerly Preclene.
340g Aerosol

$3.70

FREEZER

A safe, time-saving method for detecting dry joints and overheating components. Unique ELECTROLUBE formula contains a minute proportion of a special fluid to prevent the resultant condensation causing corrosion or reduction of insulation resistance. Other uses include preventing component damage during soldering, testing thermostats/thermosensitive components, repairing thermometer threads, and small mechanical shrink fitting. Cools to below -50°C.
340g Aerosol

$3.50

CLEAR MECHANICAL OIL

A multi-purpose, low viscosity mechanical lubricating oil of very high quality and performance.
Designed for the widest spectrum of conventional uses as well as high temperature and extreme pressure applications.
Contains clear, non-staining Molybdenum Disulphide additives for long life, tenacity and exceptional anti-wear protection.
Formerly Molyblend — HY3
170g Aerosol

Come in and see our huge range! 1000's More

To all our Customers and Friends

PAST . . . PRESENT . . . & TO COME

Greetings from Sheridan Electronics, and our thanks for your tremendous support.
It proves that our trading policies are correct . . .

"THE BEST POSSIBLE VALUE"
for
"THE BEST POSSIBLE PRICE"
with
"THE BEST POSSIBLE SERVICE"

With our store now operating at high pressure . . . with loads of electronic gear, hi-fi components, and a myriad of other sophisticated componentry for you to browse over and discuss with our attentive staff, with our mail-order department running at full speed, we now take pleasure in presenting our 1981/2 flyer. To cover every item in our vast range would be an impossible task, but the flyer pages will show you a good cross section of our stocks. As our buyers are at all times looking for the latest and the best in electronics we will publish additional information at regular intervals to update these pages. We have made our mark in the industry for our 'square-dealing', our low prices and our very rapid attention to mail order. It is our intention to maintain this high standard and to improve wherever possible.

Very Sincerely Yours,

Michael & Barry SHERIDAN

CONDITIONS OF SALE

QUOTATIONS: 1. Orders are accepted at the prices shown on current quotations and price lists but we reserve the right to amend these prices to those ruling at the date of despatch and to amend any accidental errors or omissions. Prices are net and no settlement discount will be allowed except where otherwise stated. **PAYMENT:** 2. Terms are cash with order, C.O.D. or against Pro Forma invoices except in the case of Government Dept, Hospitals, Public Companies, Colleges, Schools, etc, or approved Industrial and Commercial accounts. New accounts may be opened against two satisfactory Trade and a Bank reference. Accounts are due 30 days following month of invoice. **CARRIAGE:** 3. Carriage will be charged extra, and if no specific instructions are included in customers order, consignments will be despatched by our normal route and mode of transport to destinations indicated in customer's orders. All goods are packed carefully to ensure safe carriage, and Sheridan Electronics cannot accept responsibility for loss or damage in transit. No goods should be signed for unless they have been examined. If it is impracticable to examine goods on receipt they should be signed for as "unexamined." **DAMAGE OR LOSS IN TRANSIT:** 4. Complaints of damage or shortage must be notified to the carriers and to us in writing within three days of the date of delivery; a claim must be similarly made in writing within seven days of date of delivery. **DELIVERY:** 5. Every effort is made to meet quoted delivery dates, but it is impossible to guarantee them, as they are contingent on strikes, accidents and other causes beyond our control. We shall not be liable in any way for failure to deliver on time. Quotations ex-stock are subject to the goods being unsold at the time of receipt of order. **NON-ACCEPTANCE OF GOODS:** 6. We reserve the right to require customers to take delivery of goods at the agreed times, or, where goods cannot be accepted at these times, to render invoices for goods, payment to be affected at the end of the month in which the invoice is rendered. **INSURANCE:** 7. Where goods are insured by us voluntarily or at a customer's request a charge will be made on the invoice; but we are under no liability to take proceedings for the recovery of the loss or damage, and are to be liable only for the amount received by us under such insurance, less expenses. **GUARANTEE:** 8. All the equipment supplied by Sheridan Electronics is guaranteed in accordance with the conditions laid down by the individual manufacturers concerned.

HOURS OF TRADING — Monday to Wednesday & Friday: 9 am to 5.30 pm. Thursday: 9 am to 7 pm. Saturday: 9 am to 12 noon.

PRICE FLUCTUATIONS — We reserve the right to amend prices to those ruling at the time of despatch.
